SHAKE WELL BEFORE USE

HSNO Class: 6.4A, 9.1C

ENVIRONMENTAL WARNING: Do not apply to bodies of water. May be harmful to aquatic environment. Do not contaminate sewers, drains, dams, creeks or any other waterways with product or empty container.

HEALTH WARNING: May cause eye irritation. Avoid contact with eyes and skin. Wash hands and exposed skin before meals and after work.

CONTAINER DISPOSAL: Triple rinse container and add residue to spray tank. Ensure container is completely empty. Submit clean empty container for recycling through Agrecovery. If this is not possible, burn if permitted and circumstance, especially wind direction allow, otherwise bury in a landfill.

HANDLING PRECAUTIONS: When mixing or applying, wear protective clothing, gloves and goggles. Do not eat or drink while using. Wash hands and face before meals and after work. Wash protective clothing after work. Store in original container away from food and feedstuffs.

FIRST AID: If swallowed DO NOT induce vomiting. For advice, contact the National Poisons Centre **0800 POISON (0800 764 766)** or a doctor immediately. If skin or hair contact occurs, remove contaminated clothing and flush skin with running water.

PRODUCT INFORMATION: **Fighter-F** is designed to effectively control foam in water, oil, fertiliser and spray mixtures. **Fighter-F** will reduce mixing time by facilitating faster and more accurate filling. Foam can affect calibration and metering of spray mixtures. **Fighter-F** will reduce waste and exposure to pesticides contained in foam and running over the top of the tank.

DIRECTIONS FOR USE: Use 7-45ml **Fighter-F** per 100 litres of spray mixture. For best results add **Fighter-F** to the water before adding agricultural chemicals. Agitation will aid dispersion. Rate may need to be adjusted depending on the type of formulations and the number of products being mixed. The effectiveness of **Fighter-F** depends on temperature, viscosity and composition of the spray mixture. Decrease or increase the rate until the desired foam control is obtained.

STORAGE: Avoid freezing or extreme temperatures. Store in a cool, dry place, in original container, tightly closed. Do not re-use empty container.

EXCLUSION OF LIABILITY: PLEASE READ

To the extent permitted by law, buyers and/or users of the goods accept that neither the manufacturer, Elliott Technologies Limited as distributor, nor any other distributor have any liability or responsibility whatsoever for any loss, damage or injury whether in contract or tort, whether direct, indirect or consequential howsoever arising in connection with the supply of these goods.
